

**DECLARATION**

We are using Nordic Plast regranulat LDPE for production of Easystar film.

Parameters	Unit	Measurment	Norm
Density	g/cm <sup>3</sup>	0,930±0,012	EN ISO 1183-1:2013
Melt-flow rate – MFR (+190°C/2,16 kg.)	g/10 min	0,7-1,62	EN ISO 1133-1:2012
Humidity of surface	%	≤0,04	
Film Thickness	μm	≥30	
	Source of polymer – LDPE colored film		
	Quality – recycled LDPE colored film		
	Shape – granules/pellets		

Storage conditions: Pallets can be stored inly indoors, the temperature of storage has to be min +18°C and max +40°C.

We confirm, that we produce 100% recycled material.
