

Technical product information

calgodip Green

Filmforming teat dip- and care agent

Product benefits

- protects and cares
- ensures udder health and milk quality
- forms protecting film
- economical in use
- iodine-free

General Description

calgodip Green is a new generation, ready-to-use teat care agent for dipping after milking. The product closes the streak canal, forms a drip free barrier film around the teat and protects it against invasion of bacteria.

calgodip Green contains skin protection agents and a balanced amount of biological lactic acid. High quality care components make the skin smooth and resistant.

Application

Apply as concentrate immediately after each milking using proper dip beaker.

Detailed data on the efficacy of the product are available in a separate microbiological product information.

Technical Data

Appearance	viscous, green liquid
Odour	slightly like alcohol
pH-value (conc.)	6,5
Storage	0°C - 45°C

Handling references

Thoroughly clean out dip beaker before re-using it
