

Technical product information

calgonit ER foam

Udder cleaning concentrate with skin protection

Product benefits

- very good cleaning properties
- high content of glycerine
- gentle to skin
- economical in use

General Description

calgonit ER foam is a surfactant based detergent concentrate for wet udder cleaning prior to milking. calgonit ER foam provides excellent cleaning efficiency, is odourless and gentle to skin due to a high content of skin care agents.

Application

Foam application (undiluted):

Using undiluted calgonit ER foam an active foam can be produced with a special dipping cup (with foam generator) where the teats can be dipped in. The mild foam encloses the teats without dripping. After short exposure time teats are cleaned and wiped dry with calgonit Euterpapier.

Cleaning solution:

For udder cleaning soak calgonit Euterpapier in the use solution and wash udder thoroughly. Then rub dry. Concentration: 1 - 3% (10 - 30 ml on 1 litre water), depending on grade of soiling

Technical Data

Appearance	clear, colourless liquid
Odour	slightly like surfactant
pH-Value (1%)	4,1
Storage	5°C - 35°C

Handling references

Protect from freezing.

Ingredients Surfactants, glycerine
