## **Technical product information**

# calgodip Amadine Spray

## Teat dip- and care agent

#### Product benefits

- Europe-wide authorization
- gives excellent skin condition and protection
- ensures udder health and milk quality
- also suitable for milking robots
- iodine free

## **General Description**

calgodip Amadine Spray is a ready-to-use teat care preparation of the new generation for dipping and spraying after each milking.

calgodip Amadine Spray forms a disinfecting barrier film around the teat which protects the udder against invasion of bacteria.

calgodip Amadine Spray contains skin protecting components and a well balanced amount of biological lactic acid, which is characterized as especially skin friendly and has simultaneously a remarkable disinfection performance. High quality care components make the skin resistant and supple. calgodip Amadine Spray was tested according european norm to EN 1656.

## **Application**

Apply as a concentrate immediately after each milking using proper dip beaker or sprayer with hand or milking robot.

Detailed data on the efficacy of the product are available in a separate microbiological product information.
