

Technical product information

calgonit sterizid ECOKOK

Liquid concentrate against coccidia and roundworm eggs

Product benefits

- good material compatibility
- high effectiveness

General Description

calgonit sterizid ECOKOK is a very efficient surface disinfectant.

calgonit sterizid ECOKOK is effective against permanent forms of endoparasites like coccidia oocysts e.g. eimeria species of poultry, isospora species, lungworms (dictyocaulus species), gastrointestinal worms (trichostrongylus species) and tapeworms (cestodes), cryptosporidae as well as bacteria, mycobacteria and yeasts.

calgonit sterizid ECOKOK is suitable for poultry breeding and fattening, pig breeding and fattening, calf and cattle stables, artificial insemination stations and experimental animal stables.

Application

Before re-assignment of the stable with animals thoroughly clean stable, devices and equipment which can get in contact with the animals. Spray floors and walls (up to a height of about 1.5 m) with a solution of calgonit sterizid ECOKOK.

Coccidia oocysts and roundworm eggs are often difficult to access. Therefore it is particularly necessary to treat these areas (interstices, bottom of cages, nests, devices, machinery etc.). For spraying high pressure equipment and other sprayers are suitable.

Important:

After use of calgonit sterizid ECOKOK let the stable dry and ventilate before re-use.

Use concentration:

Coccidia and Roundworm Eggs: 2,5%, 20°C, 120 min

Bacteria and Yeasts: 0,5%, 10°C, 30 min

Mycobacteria: 1%, 10°C, 30 min

Virus: 3%, 10°C, 30 min

The microbiological tests were done according to EN-Methods (Bacteria, Myco, Yeasts) or DVG-Method (Parasites).

Detailed data on the efficacy of the product are available in a separate microbiological product information.

Application rate: 400 ml solution per m²

Technical Data

Appearance	brownish liquid
Odour	characteristic
pH-Value (1%)	1

Handling references

Use biocides safely. Always read the label and product information before use.

Ingredients Chlorocresol, propionic acid, inorganic acid
